

## Examples:

Students will learn how to multiply in their head (no working out on paper):

By 25, 11, 125, 75, close to 100, Foil Method, 12, squares ending in 5,

Remainder when dividing by 9

Multiply fractions

Calculator we will concentrate on number crunchers which is order of operations and how to use a reverse polish notation calculator. Which is a calculator that engineers use.

**MATH  
ROCKS**

## Investigative Math Camp

Sylvia Martinez  
Wylie Junior High

Tel: 325-721-6991

Students involved in investigative math (7th & 8th grade)

## Investigative Math Camp

Come learn the fun of mathematics with math puzzles, UIL number sense, calculator skills, games and more. **This camp is not for students who have trouble with math.** It is for the students who enjoy math and would like a challenge to do math in their heads.

### Ages:

#### Entering Grade 5 and 6

If your child is a very strong math student 4th grade will be accepted.

### Location:

Wylie Junior High  
4010 Beltway South  
Abilene, Texas 79606

### Date & Time:

June 3-6, 2019  
9:00am until 12:00

### Cost:

\$75 (checks payable to Sylvia Martinez)

### Deadline to register:

May 31, 2019

### How to Register:

Email your Name, Phone number, Child's name, and what grade he/she has completed to: [smartinez@wylie.esc14.net](mailto:smartinez@wylie.esc14.net)

Or Fill out the following and return to Wylie Junior High:

Name: \_\_\_\_\_

Child name: \_\_\_\_\_

Grade completed: \_\_\_\_\_

Parent email: \_\_\_\_\_

**Remember, they will be learning Number sense and Calculator only**

Be a part of a team that will help with math & science classes in your future. Most students who have come through the program have expressed how much they benefited by the program.
